

My Animal's Amazing Ability

By Julia

One night my small furry pet made me laugh. My sister, Megan, was by my gerbil's cage. She said, "Come here, come here!" I got out of my cozy bed and went to my gerbil's quarters. It was amazing, Lemon Meringue was doing the monkey bars across the top of her cage. I was surprised she would behave like a chimpanzee. We laughed loudly. That night I learned gerbils are stronger and more entertaining than I thought.
