

My Dog's Horrifying Tail

By Faith

My dog's horrifying tail annoys me because it won't stop moving. I was playing outside with my family along with, Sadie, my dog, when she ran, stopped right in front of me, and panted in my face! Afterward, she was so happy to be played with that her ecstasy lead her to come right behind me and whack me with her tail! Then I fell down and got hurt but with no severe damages. Ever since then, I have been afraid of Sadie's crazy tail because whenever she gets excited she wags it viciously but unintentional to do any harm.
